

1/4 Mile Coupe

Designer: Hot Wheels

24 Ours

Specialty: Based on the Peugeot 908 Le Mans race car.

5 Alarm

Engine: turbine tank

Horsepower: 550hp

Top speed: 95mph

Acceleration 0-60mph: 12.4 seconds

Specialty: With a turbine tank engine, side exhaust, and safety tools on top, this fire truck was made for fast response on and off the job.

8 Crate

Designer: Hot Wheels

Acura NSX ['90]

Born: 1990

Birthplace: Tochigi, Japan

Designer: Honda Motor Company

Specialty: Mid-engine, rear-wheel-drive sports car designed to balance usable power and reliability. With a naturally aspirated VTEC engine, it's suitable for the extreme demands of both road and track, and is considered to be one of the most reliable exotic cars ever made.

Acura NSX Concept ['12]

Specialty: Based off of the actual production model.

Alfa Romeo 8C Competizione

Born: 2007

Birthplace: Turin, Italy

Designer: Alfa Romeo

Specialty: Very limited edition and highly sought after model. The name refers to the eight-cylinder engine (8C), while Competizione is Italian for "competition" and speaks to its racing pedigree.

Amazoom

Engine: I6(Inline Six) General Passat

Horsepower: 912 HP

Speed: 222 MPH (357 KMH)

Acceleration 0-60 mph: 6.0 seconds

Specialty: The car could be an adaption from the VW Passat 3b (Judging by it's front grill and headlights), a stock car that was popular on the Brazilian racing circuit.

AMC Greased Gremlin

Designer: Hot Wheels

Arkham Asylum Batmobile

Specialty: Based on the Batmobile featured in the 2009 Arkham Asylum video game.

Armored Truck

Engine: V8
Horsepower: 250 hp
Top speed: 95 mph
Acceleration (0-60): 18.2 seconds

Arrow Dynamic

Designer: Hot Wheels

Aston Martin DB5 [1963]

Born: 1963
Birthplace: Aston Martin, Newport Pagnell
Designer: Aston Martin & Carrozzeria Touring
Specialty: Most famous for being featured in the 1964 James Bond film Goldfinger, and more recently the 2012 film Skyfall. Regarded by many as the most famous car in the world (due to the custom addition of an ejection seat for the films).

Aston Martin One-77

Specialty: Based off of the actual production model.

Aston Martin V8 Vantage

Engine: 4.3L V8
Horsepower: 380hp
Acceleration 0-60mph (0-100km/h): 4.3 sec.
Top speed: 186mph (300 km/h)

Aston Martin Vantage GT3

Specialty: Based off of the actual production model.

Audacious

Specialty: Audacious is a 4-door model of the Honda Civic EF.

Avant Garde

Engine: I7(Inline Seven) Victorium Lizel
Horsepower: 870 HP
Top Speed: 236 MPH (379 Km/H)
Acceleration 0-60 mph: 6.3 seconds

Backdrafter

Born: 2014
Birthplace: El Segundo, CA USA
Designer: Hot Wheels
Specialty: Hot rod fire truck that really brings the heat. Twin engines, a rear spoiler, and all-terrain tires make sure this flame fighter can get anywhere fast.

Bad Mudder 2

Engine: I6 (Inline Six) Rumble Dirt
Horsepower: 1153hp
Speed: 315mph
Acceleration 0-60: 5.8 seconds

Bad Ratitude

Born: 2013

Birthplace: El Segundo, CA USA

Designer: Hot Wheels®

Specialty: This lil' fat rat rod comes with 10 cylinders of serious cheese to stand up any cat who decides to cross its path! Catch it if you can!

Battle Spec

Engine: W12 Crystal Zenon

Horsepower: 1045 Hp

Speed: 308 MPH(495 Km/H)

Acceleration 0-60mph: 4.2 seconds

Bedlam

Engine: V12 Xelium Hybird

Horsepower: 1290 Hp

Speed: 329 MPH(529 Km/H)

Acceleration 0-60mph: 5.1 seconds

Bentley Continental Supersports

Specialty: The Bentley Continental Supersports is a lightweight version of the Continental GT. It was once the fastest Bentley ever made, with a top speed of 204 mph.

Blitzspeeder

Born: 2016

Birthplace: El Segundo

Designer: Hot Wheels

Specialty: Time to head to the track in the Blitz Speeder. With its rear wing stabilizer, front-mounted V8, 700 HP engine. The Blitz Speeder will nail those sharp corners and take you straight to the leader board!

Bld. Bruiser

Designer: Hot Wheels

BMW E36 M3 Race

Born: 1992

Birthplace: Munich, Germany

Designer: BMW

Specialty: The "M" in the name stands for motorsport. This racecar version of BMW's popular 3 series was the first M3 powered by a straight-6 engine. With 282 hp and miles of speed, it is an extremely popular model among circuit racers.

Bone Shaker

Specialty: The Bone Shaker is a Hot Wheels Original Design. Mattel created a life-size version of it as well.

Bread Box

Designer: Hot Wheels

Buick GSX ['70]

Specialty: Based off of the actual production model.

Bull Whip

Born: 2014

Birthplace: El Segundo, CA USA

Designer: Hot Wheels

Specialty: Check out that custom wing converted to a roof! With massive stability at high speeds and plenty of power, this rally racer is ready to dominate the Baja circuit.

Bullet Proof

Designer: Hot Wheels

Cadillac Elmiraj

Born: 2013

Birthplace: Detroit, Michigan, USA

Designer: General Motors

Specialty: Two-door, four-seat coupé, powered by a 4.5-liter twin turbocharged V8, delivering up to 500 hp. It was first unveiled at the 2013 Pebble Beach, and is named for the El Mirage dry lakebed used for high-speed runs.

Camaro ['69]

Specialty: Based off of the convertible version actual production model.

Camaro Road Race ['70]

Specialty: A best in show example of a second generation Camaro, this pony is slick, fast and ready to show or race!

Carbide

Engine: V 14 Chrono Buster mode

Horsepower: 1350 hp

Top speed: 335 mph (535 Km/H)

Acceleration 0-60 mph: 6.8 seconds

Carbonic

Born: 2013

Birthplace: El Segundo, CA USA

Designer: Hot Wheels

Specialty: Open roadster with a rear-mounted, turbo charged, 4-cylinder compact engine and gobs of carbon fiber. Sleek, light and powerful, it excels both on and off road and was built for winning.

Chevy ['62]

Specialty: Based on the actual production model of the same name.

Chevy Chevelle ['70]

Specialty: Modified for circle track racing.

Chevy Nova ['68]

Specialty: Based on the actual production model of the same name. The Chevrolet Nova sported a 307 cu inch V8 engine, and a three-speed Turbo-Hydramatic transmission.

Chevy Tahoe ['07]

Specialty: Modified to have a light bar and a bumper ram on front so it could serve as a fire department vehicle.

Circle Tracker

Designer: Hot Wheels

Clear Speeder

Born: 2013

Birthplace: El Segundo, CA USA

Designer: Hot Wheels

Specialty: Here's a sleek, executive level speeder with an eye to the future. Wild surfacing keeps the air flowing quickly. Top and bottom are fully transparent—no surprises here, it's ready to lead the pack.

Cockney Cab II

Engine: I-8 Mach Darth

Horsepower: 780 hp

Top speed: 187 mph (300 Km/h)

Acceleration 0-60 mph: 6.1 seconds

Specialty: Need to get somewhere fast? Hailing the Cockney Cab II will be the best bet. Unlike the traditional London Taxis, this custom version features a super tuned rear V8 engine to power down the cobblestone lanes. Book reservations now as they are filling up fast! *Actual speed may vary based on weather and local traffic conditions.

Cool-One

Specialty: The Cool-One is a modified ice cream van.

Corvette C7.R

Born: 2015

Birthplace: Detroit, MI, USA

Designer: General Motors

Specialty: Race version of the popular C7, with increased cooling and aerodynamic downforce. It sports a 5.5-liter naturally aspirated engine and modified suspension to accommodate racing tires and larger brakes.

Corvette Stingray

Specialty: Based on the actual 1974-77 production models of the same name.

Corvette Stingray Convertible ['14]

Born: 2014

Birthplace: Detroit, MI, USA

Designer: General Motors

Specialty: Engineered for speed, but built for the road, this updated icon features a reworked 6.2 liter V8, tuned for somewhere around 450 hp. It's a revolutionary, lightweight vehicle with the aesthetic impact and performance prowess worthy of the Stingray emblem.

Corvette ZR1 ['09]

Engine: 6.2L V8 (supercharged)

Horsepower: 638hp

Acceleration 0-60mph (0-100km/h): 3.3 sec.

Top speed: 208mph (332.8 km/h)

Cul8r

Engine: V12 Viking Crystal Dust
Horsepower: 1200 HP
Top Speed: 320 MPH (515 Km/H)
Acceleration 0-60 MPH: 6.1 seconds

Custom Ford Bronco

Specialty: The Custom Ford Bronco is based on the 1966 - 1977 Ford Bronco.

Custom Galaxie 500 ['64]

Specialty: Based off of the actual production model.

Custom Volkswagen Beetle

Specialty: Based off of the actual production model.

Custom Willys Coupe ['41]

Specialty: Based off of the actual production model.

Datsun Bluebird 510 Wagon ['71]

Specialty: Wagon version of the Classic Datsun Bluebird 510 sedan, the Datsun Bluebird wagon offers more cargo space, bullet-style side-view mirrors and a much roomier passenger compartment than its sedan counterpart. A real 1970s classic, built to last.

Dawgzilla

Born: 2016
Birthplace: El Segundo, CA USA
Designer: Hot Wheels

Specialty: Here's a beastly muscle truck loaded with torque and pure power. With a big-block V8, oversized off-road wheels, and a full time 4x4 system, it always gets the job done.

DC Comics Aquaman

Specialty: Designed with the DC Comics hero in mind...what Aquaman would look like if he WERE the car.

Dodge Challenger ['71]

Specialty: Based off of the actual production model.

Dodge Challenger SRT ['15]

Specialty: Based off of the actual production model.

Dodge Charger 500 ['69]

Born: 1969
Birthplace: Auburn Hills, MI, USA
Designer: Chrysler Group LLC

Specialty: Engineered to conquer the high-banked oval track, the rear window on the racer was designed flush with the rest of the roof. It's got a 1968 Coronet grille up front, a 426 Hemi under the hood and is ready to dominate the sprints, With Engine V8.

Dodge Charger Daytona ['69]

Specialty: Based off of the actual production model.

Dodge Charger Drift

Specialty: Based on a vehicle from the Formula Drift racing series. It has been modified to have a light bar and a bumper ram on front so it could serve as a rescue vehicle.

Dodge Charger R/T ['11]

Specialty: With a return to the flowing lines of Dodge's nineties sedans, and with a nod to its seventies ancestors, this modern American muscle car sports a 5.7L HEMI V8 engine and enough power to satisfy even the most judicious rebel.

Dodge Coronet Superbee ['69]

Specialty: Based off of the actual production model. Equipped with a 390 hp version of the 440 V8 engine with three 2bbl Holley carburetors on an aluminum intake manifold, a black fiberglass lift-off hood secured with metal pins, heavy-duty suspension and 15" steel wheels, this muscle car was designed to blow the doors off the competition.

Dodge Li'l Red Express Pickup ['78]

Specialty: This special variant of the third Generation Dodge D-series pickup was only used for the 1978 and 1979 Model years.

Drift Rod

Designer: Hot Wheels

El Camino ['68]

Specialty: Based on the Chevrolet vehicle of the same name, it features the engine relocated to the bed.

Enforcer

Engine: Flat eight (F8) Vega Blaster
Horsepower: 956 hp
Speed: 256 mph (411 Km/H)
Acceleration (0-60) mph: 6.5 seconds

Epic Fast

Born: 2014
Birthplace: El Segundo, CA USA
Designer: Hot Wheels

Specialty: Check out the ultimate modern racer: The moving center wing helps the car slow and corner, while the twin turbine power plants supply electric power to the storage unit and distribute it to 4 electric motors in the wheels. The future is here and it sure is fast!

Fast-Bed Hauler

Born: 2013
Birthplace: El Segundo, CA USA
Designer: Hot Wheels

Specialty: 1930's-style single-ton flatbed with dual V-8 engines. It was made for transporting speedy cargo to hot rod events in style.

Fast FeLion

Engine: V10 Lion Supercharged
Horsepower: 1150 HP
Speed: 335 mph
Acceleration 0-60 mph: 6.6 seconds

Fast Fish

Specialty: Inspired by the 1970 Plymouth Barracuda, although the styling of the car is definitely 21st-century. This contemporary muscle car comes equipped with quad exhaust and a transparent hood bulge to show off the brute force of its 8-cylinder engine and let you know it's fast and fierce. The spoilers around the car, top and bottom, as well as the styling of headlights and other features give an impression of an American muscle-car take on laser precision.

Fire Eater

Designer: Hot Wheels

Ford F-100 ['56]

Specialty: Customized panel-truck version of the 1956 Ford F-100 pickup truck.

Ford 427 Fairlane ['66]

Specialty: Based off of the actual production model.

Ford Fiesta ['12]

Specialty: A re-creation of a Ken Block gymkhana drifter. An extremely well rounded rally car, ready for awesome action in the snow!

Ford Mustang ['69]

Specialty: Based off of the actual production model.

Ford Mustang GT Concept

Specialty: Based off of the actual production model, and equipped with a light bar.

Ford Mustang SVO ['84]

Specialty: The Ford Mustang SVO was a limited-production variant of the third generation Ford Mustang produced in the US from 1984-1986. Unlike its predecessor the Mustang Cobra, the SVO was designed differently than most mainstream Mustang Models. During its short run, the SVO was the most expensive and the fastest Mustang available at the time. The SVO was designed by Ford's Special Vehicle Operations (SVO) Department, hence the "SVO" nameplate. Like its predecessor, the Mustang Cobra, the SVO was also a Liftback design.

Ford Shelby GR-1 Concept

Specialty: Based off of the actual production model.

Ford Torino Talladega ['69]

Born: 1969
Birthplace: Dearborn, Michigan, USA
Designer: Ford Motor Company

Specialty: With a V8 engine, a flush-mounted grille and an extended nose for better aerodynamics, this Ford classic was meant for the track, but made for the street.

Formul8r

Engine: F8 Exodus
Horsepower: 810 hp
Top speed: 195 mph (315 KM/H)
Acceleration 0-60 mph: 6.0 seconds

GMC Motorhome

Specialty: Based on the 1977 GMC Motorhome.

Golden Arrow

Engine: V10 Sagittarius Starmile
Horsepower: 1108 Hp
Top Speed: 308 MPH (495 Km/H)
Acceleration 0-60 MPH: 4.9 seconds

GT Hunter

Born: 2014
Birthplace: El Segundo, CA USA
Designer: Hot Wheels
Specialty: Super-slammed GT-style speeder with an extra wide body kit and exposed twin-turbo engines. Watch out, it's an ace tracker that knows how to dominate its prey.

Hiway Hauler 2

Designer: Hot Wheels

Honda Civic Si

Specialty: Tuner based on the actual production model. Comes standard with an in-line 4 cylinder I-VTEC engine.

Hot Wheels Chevy Camaro Special Edition ['13]

Specialty: Hot Wheels for real! Check out this full-scale Hot Wheels Camaro, with real life red line tires, super shiny paint and Hot Wheels badging - available in V6 and V8, coupe or convertible. Ready to play?

Hover Storm

Born: 2015
Birthplace: El Segundo, CA USA
Designer: Hot Wheels
Specialty: Designed to both race the roads and hover above water, this air-cushioned speeder relies on compressed air for lift. And, with twin turbo props and a mid-mounted engine, it's ready to fly.

Howlin' Heat

Designer: Hot Wheels

HW40

Engine: H V-12 T-Crystal
Horsepower: 1430 hp
Top speed: 343 mph (552 km/h)
Acceleration 0-60 mph (0-100 km/h): 7.1 seconds

HW Rapid Responder

Specialty: Based on the emergency truck from the hit tv show Emergency!

Impavido 1

Engine: V-10 Twin Gae Bolg

Horsepower: 1415 hp

Top speed: 341 mph (548 Km/h)

Acceleration 0-60 mph: 6.1 seconds

La Fasta

Specialty: Based on the DeTomaso Pantera. With a roof-mounted intake, transparent engine cover, and a supercharged V8 engine, this European exotic is one fast puppy!

Laferrari

Born: 2013

Birthplace: Maranello, Italy

Designer: Ferrari

Specialty: Limited production hybrid that can achieve top speeds over 220mph (350 km/h), and can reach 62 mph (100 km/h) in under three seconds. It provides the highest power output of any Ferrari while consuming 40 percent less fuel.

Lamborghini Aventador J

Born: 2012

Birthplace: Sant'Agata Bolognese, Italy

Designer: Lamborghini

Specialty: Here's the roofless, windowless version of Lamborghini's flagship supercar. The roadster is lighter and faster than it's predecessors and was built to race.

Lamborghini Aventador LP 700-4

Specialty: The Lamborghini Aventador LP700-4 is a two-door, two-seater sports car publicly unveiled by Lamborghini at the Geneva Motor Show on 28 February 2011. The Aventador was designed to replace the ten-year-old Murciélago as the new flagship model in the Lamborghini line-up.

Lamborghini Huracan LP 610-4

Born: 2015

Birthplace: Sant'Agata Bolognese, Italy

Designer: Lamborghini

Specialty: The Huracán features full LED illumination, a 12.3 inch full-color instrument panel, and a 7-speed dual clutch transmission. It can reach up to 202 mph and can go from 0 to 60 in 3.2 seconds.

Lamborghini Revention

Engine: 6.5L V12

Horsepower: 650 hp

Acceleration 0-60 mph (0-100 km/h): 3.4 sec.

Top speed: 221 mph (356 km/h)

Lancia Stratos

Specialty: Based off of the actual production model.

Land Crusher

Born: 2013

Birthplace: El Segundo, CA, USA

Designer: Hot Wheels

Specialty: Here's a super fast truck made for off-pavement racing. With long-travel suspension and a monster V8, it's ready to chew up and spit out any terrain the Baja course serves up.

Lotus Esprit

Specialty: Based off of the Lotus Esprit V8 model.

Lotus Esprit S1

Born: 1975

Birthplace: Hethel, Norfolk, England

Designer: Lotus Cars

Specialty: British supercar powered by the Lotus 970 4-cylinder engine. It's probably most famous for the 1977 James Bond film *The Spy Who Loved Me*, where it was featured in a long chase sequence and was transformed into a submarine.

Maelstrom

Engine: V8 Duos Vector

Horsepower: 865 HP

Speed: 265 MPH (426 Km/H)

Acceleration 0-60 mph: 6.9 seconds

Marvel Comics Falcon

Specialty: Car is designed to represent the hero Falcon from Marvel Comics.

Marvel Comics Groot

Specialty: Truck is designed to represent the hero Groot from Marvel Comics.

Marvel Comics Rhino

Specialty: Truck is designed to represent the nemesis Rhino from Marvel Comics.

Marvel Comics Spider-Man

Specialty: Car is designed to represent the hero Spider-Man from Marvel Comics.

Mastretta MXR

Born: 2013

Birthplace: Mexico City, MEXICO

Designer: Mastretta

Specialty: High-performance, lightweight sports car built and engineered completely in Mexico. Boasting 0 to 100 km per hour in less than 5 seconds, it's fast, powerful and built to move.

Mazda Furai

Specialty: The Mazda Furai is a concept car manufactured by Mazda. The Furai, meaning "sound of the wind", is powered by a new generation 3-rotor wankel engine that puts out 450 brake horsepower (340 kW). The engine is developed and built by renowned rotary tuner, Racing Beat, who also built the car's rotary-shaped muffler canister. Unlike many concept cars, the Furai is fully functional and is currently being tested at various tracks. It has run at Laguna Seca and Buttonwillow.

Mazda RX-7

Specialty: Based off of the actual production model.

McLaren P1

Born: 2013

Birthplace: Woking, Surrey, U.K.

Designer: McLaren

Specialty: F1 technology meets hybrid power in this very limited production, plug-in hybrid sports car. It's got a 3.8-liter twin-turbocharged V-8, combined with a powerful electric motor. With both motors the McLaren P1 boasts a total power and torque of over 900 bhp and 722 pounds.

Mercury Cougar ['68]

Born: 1968

Birthplace: Dearborn, Michigan, USA

Designer: Ford Motor Company

Specialty: With a 4-barrel V8 and massive power, this wildcat was made for racing. Check out that hood scoop.

Mercury Cyclone ['69]

Specialty: Based off of the actual production model.

Mig Rig

Born: 2013

Birthplace: El Segundo, CA USA

Designer: Hot Wheels

Specialty: Vintage-style pickup, with mid-mounted V8 motor and plenty of welding tools in the back. Who says you can't work hard and get there in quick style?

Mini Cooper S Challenge

Born: 2010

Birthplace: Oxford, England

Designer: MINI

Specialty: A purpose-built race car, based on the R56 Hardtop, with 6-speed transmission; racing tires and an aerodynamic kit. It proves once and for all that fast things can come in small packages!

Monster Dairy Delivery

Designer: Hot Wheels

Mountain Mauler

Born: 2013

Birthplace: El Segundo, CA USA

Designer: Hot Wheels

Specialty: Formula off-road racer with one thing in mind—racing up the mountain side. It's a ripper that's built for gettin' dirty.

Mustang II Concept ['63]

Specialty: Based off of the actual production model.

Mustang Convertible ['65]

Specialty: Based off of the convertible version actual production model.

Mustang Fastback ['65]

Specialty: Based on the road race version of the car of the same name.

Mustang Mach I ['71]

Specialty: Based off of the actual production model.

Nerve Hammer

Engine: Exceed V-8 Crystal

Horsepower: 875 hp

Top speed: 220 mph

Acceleration 0-60 mph: 5.1 seconds

Nissan 370Z

Specialty: Based off of the actual production model.

Nissan Fairlady Z

Born: 1969

Birthplace: Japan

Designer: Nissan

Specialty: The driver's sports car in its purest form! It's a 2-seater with an inline-6 engine and unmistakable GT shape. Customized with an aerodynamic G-nose, 3-piece wing and works-style overfenders for an extra dose of aggression and performance.

Nissan Skyline H/T 2000GT-R

Specialty: The Nissan Skyline H/T 2000GT-R was produced in Japan from 1972-1973 as a special sports Variant of the Nissan Skyline. The 2000GT-R was part of the C110 series of the Nissan Skyline from the early to mid-1970s. The 2000 GT-R was intended for Motorsport and was only sold at Special Dealerships in Japan. Less than 200 were produced, making the 2000GT-R incredibly rare. The reason for its limited production run was the Oil Crisis of the early 1970s. In that time period, many sports vehicles were discontinued because demand for performance vehicles gave way to more fuel-efficient economy cars.

Nitrium

Designer: Hot Wheels

Nitro Doorslammer

Engine: V-12 Double Breaker

Horsepower: 1220 hp

Top speed: 302 mph (486 Km/h)

Acceleration 0-60 mph: 5.7 seconds

Nitro Tailgater

Born: 2015

Birthplace: El Segundo, CA USA

Designer: Hot Wheels®

Specialty: This urban beast is loaded with power. With 6 bucket seats, a blown engine and tons of torque, it's probably the coolest ride the carpool line has ever seen.

Off-Duty

Born: 2013

Birthplace: El Segundo, CA USA

Designer: Hot Wheels

Specialty: All-terrain, lifted pick up with a backseat and super-sized off-road tires to take the entire crew wherever it needs to go. With front grill guard and fog lights to light up the road, the jungle, the desert or snow, this monster 4x4 is unstoppable.

Off Track

Specialty: All-terrain.

Pagani Huayra

Specialty: The Pagani Huayra (pronounced: wai-rah) is an Italian Mid-engined Supercar produced by Pagani. Succeeding the company's previous offering, the Zonda. The Huayra was named "The Hypercar of the Year 2012" by Top Gear Magazine and received a very positive review when tested by Richard Hammond on Top Gear. The Huayra is currently the fastest road-legal and streetworthy car ever to go round the Top Gear Test Track, setting a time of 1 minute 13.8 seconds.

Pass'n Gasser

Designer: Hot Wheels

Plymouth AAR Cuda ['70]

Specialty: Based off of the actual production model. The designation "AAR" is for All-American Racers. Two of these Championship Dan Gurney built cars ran in the 1970 Trans Am Series. This muscle car has a flat black 'fiberglass' hood, special side exhausts, and a 340 six-pack.

Plymouth Road Runner ['71]

Specialty: Based off of the actual production model.

Plymouth Superbird ['70]

Specialty: Based off of the actual production model.

Pontiac GTO ['67]

Specialty: With stacked taillights, ram-air hood scoop, and a V8 engine, this hardtop coupe was made for good times and good fun.

Pontiac GTO Judge ['70]

Specialty: The car is easily recognizable by it's "The Judge" decals and it's hood and rear quarterpanels.

Porsche 911 GT2

Specialty: With a classical 911 silhouette, titanium rear silencer, and increased performance through efficiency, this is the most powerful road-licensed 911 ever.

Porsche 911 GT3 RS

Specialty: Based off of the actual production model.

Porsche 918 Spyder

Specialty: The Porsche 918 Spyder is a mid-engined sports plug-in hybrid designed by Porsche and first shown as a concept at the 80th edition of the Geneva Motor Show in March 2010. The Spyder is powered by a 4.6 litre V8 engine, developing 608 horsepower (453 kW), with two electric motors delivering an additional 279 horsepower (208 kW). It is the first plug-in hybrid car from Porsche.

Porsche 934 Turbo RSR

Born: 1976

Birthplace: Leipzig, Germany

Designer: Porsche

Specialty: A 1970's racing version of the 911, this 2-door racer was built for top speeds in the 160 mph range. It's one of the last examples of a track winner that was also street-legal.

Power Pistons

Engine: V-10 Guilty Dual Mark 2

Horsepower: 1117 hp

Top speed: 317 mph

Acceleration 0-60 mph: 7.5 seconds

Power Surge

Born: 2015

Birthplace: El Segundo, CA, USA

Designer: Hot Wheels

Specialty: Completely electric supercar with wireless induction charging coils and oversized heat sinks to power gigantic electric motors. Solar panels on the roof maximize environmental resources. It's fully charged and ready for anything.

Preying Menace

Engine: W12 Kamakiri Raijin

Horsepower: 1155 Hp

Top Speed: 316 MPH (510 Km/H)

Acceleration 0-60 MPH: 3.9 seconds

Quicksand

Designer: Hot Wheels

Rapid Response

Specialty: This Hot Wheels vehicle was based on an ambulance.

Rapid Transit

Engine: V8 Chrono Transport

Horsepower: 895 hp

Top speed: 255 mph

Acceleration 0-60 mph: 5.7 seconds

RD-01

Designer: Hot Wheels

RD-02

Specialty: RD-02 is powered by a 840 hp Hydrogen fueled turbine engine on a 8-speed transmission. An Aluminum chassis holds RD-02 together on fully adjustable computerized suspension with a carbon fiber monocoque. The RD-02 has 16" carbon ceramic 18 piston brakes with drilled and slotted rotors. The car has 18" carbon fiber front wheels and 20" rear wheels

RD-08

Designer: Hot Wheels

Repo Duty

Designer: Hot Wheels

Rigor Motor

Engine: W-8 Fangstrizer
Horsepower: 890hp
Top speed: 290 mph
Acceleration 0-60 mph: 5.5 seconds

Rockster

Horsepower: 380 hp
Speed: 125 mph
Acceleration (0-60 mph): 8.9 seconds

Ryura LX

Born: 2013
Birthplace: El Segundo, CA USA
Designer: Hot Wheels
Specialty: Full-size luxury sedan (limo) with super power. Designed for style and performance, this high-end speeder features a 6-liter V-12 for mega horsepower, plus all the latest automotive technology.

Scion FR-S

Specialty: Based off of the actual production model.

Sharkruiser

Engine: V8 Umi Aoi
Horsepower: 860 hp
Top speed: 206 mph (335 Km/H)
Acceleration (0-60 mph): 5.6 seconds

Shelby GT500 ['68]

Born: 1968
Birthplace: A.D. Smith Companu, Ionia, Michigan
Designer: Shelby American and Ford Motor Company
Specialty: With a 428ci V8 engine rated at 360hp, a built-in roll cage, and an aggressive front end, this Shelby is fast, agile and ready to tear up the drag strip.

Sling Shot

Engine: V8 Whiteside Lightning
Horsepower: 765Hp
Top speed: 182 MPH (297 Km/H)
Acceleration 0-60 mph: 5.5 Seconds

So Plowed

Born: 2013
Birthplace: El Segundo, CA USA
Designer: Hot Wheels
Specialty: Here's a Hot Wheels version of a cold weather beast. With an oversized snow blade up front, a V10 and an extra helping of torque, it's a truck built for moving mountain—of snow at least!

Speed Dozer

Designer: Hot Wheels

SpecTyte

Engine: V-8 Cross Buster
Horsepower: 817 hp
Top speed: 207 mph
Acceleration 0-60 mph: 5.2 seconds

Speed Slayer

Born: 2014
Birthplace: El Segundo, CA USA
Designer: Hot Wheels
Specialty: Land-speed champ with 2 extra large jet engines and massive air intakes to feed the beast. It's a flat-out leader—ready, willing and able to destroy the competition.

Speedbox

Designer: Hot Wheels

SRT Viper GTS-R

Born: 2013
Birthplace: Auburn Hills, MI, USA
Designer: Chrysler Group LLC
Specialty: Race version of the 2013 Viper, with a de-stroked V-10 with 8.0 liters of displacement. Custom XL racing slicks are required to handle the massive torque of the true, track beast.
